

ILL for e-books – experiences since four years – learning to walk

Dr. Berthold Gillitzer, Bayerische Staatsbibliothek

Content

- General remarks about ILL
- The walking boots: concept and the system
- First steps: experiences of the last four years trial period with e-books in ILL
- ILL and e-books – content and license agreements
- Next steps and the prospects

Bayerische Staatsbibliothek – facts and figures **BSB**

- virtual national library together with other libraries
- 10,7 million volumes
- 138,000 manuscripts
- 57,000 current periodicals in electronic or printed form
- Most important lending library in ILL within Germany
- Most important lending library in OCLC worldshare ILL outside the US

ILL: Old Fashioned or Up To Date? **BSB**

- The basic principle of ILL: sharing limited resources / use instead of possession – is that old fashioned?

ILL: Old Fashioned or Up To Date?

- Aspects of the “problem“ - theses
 - I. **ILL is the consequence of various shortages**
 - No single patron can buy and own everything he needs for scientific work: libraries are indispensable information providers (bundling resources)
 - No single library can provide all needed information
 - **ILL as “book sharing” or “library resource sharing”**

ILDS2019 Dr. Berthold Gillitzer 5

5

ILL: Old Fashioned or Up To Date?

- Aspects of the “problem“ - theses
 - II. **ILL can not be replaced by other solutions: pay-per-use, PDA, direct document delivery...**
 - Shortcomings of the alternatives:
 - No completeness, no solution throughout
 - Only few common standards
 - Not part of the established services
 - No sustainability – the services may vanish every moment

ILDS2019 Dr. Berthold Gillitzer 6

ILL: Old Fashioned or Up To Date?

- Aspects of the “problem“ - theses

III. E-media do not match the principles of ILL

- License and right to access instead of possession of the book or journal

⇒ No application of legal restrictions to the copyright

⇒ further license agreements are necessary

- Handling of data instead of paper (books or journals)

⇒ modification of the technical basis

ILL: Old Fashioned or Up To Date?

- Aspects of the “problem“ - theses

IV. conclusions

- *ILL can be up to date if it is enhanced*

⇒ **new ILL license agreements are necessary**

⇒ **modification of the technical basis for e-media**

– handling of data instead of paper (eg scanning)

– handling of license information

setting up the system – the walking boots

setting up the system – the walking boots

BSB

Initial situation:

- Increasing number of unfulfilled ILL requests concerning e-books
- E-only-policy of the German Research Foundation (DFG): preference of the digital version
- Need for a concept of supra-regional accessibility of e-media for financing by the DFG
- No license agreements concerning ILL for e-books
- No technical solution and no project funding from the DFG
- Existing technical solution for e-journals

ILDS2019

Dr. Berthold Gillitzer

The only solution before the start of the project: library journey

CC BY Arachne

Setting up the system - the walking boots BSB

The technical concept:

- ILL of e-books should be similar to traditional ILL of printed books
 - Explicit and single order per book and user – no direct access to the digital content
 - Manual processing of the orders in the lending library
 - Limited access (number of downloads) per book and per year
 - Limited number of authorized users (users permitted for ILL in Germany – no free registration)
 - Controlled access: authentication for ordering and same authentication for document access and download
 - Limited period of document access (two weeks)

First steps: experiences

BSB

First steps: experiences of the last four years trial period with e-books in ILL

ILDS2019

Dr. Berthold Gillitzer

15

First steps: experiences

BSB

Trial period with productive ILL within the Bavarian Library Network (BVB)

- Technical infrastructure is up and running
- The German library networks agreed upon using the system as a common national system
- License agreements with four publishers: Sagner, DeGruyter, Steiner eLibrary, Duncker & Humblodt, Wiley => aprox. **18.000 e-book-title**
- 11 Partaking lending libraries

ILDS2019

Dr. Berthold Gillitzer

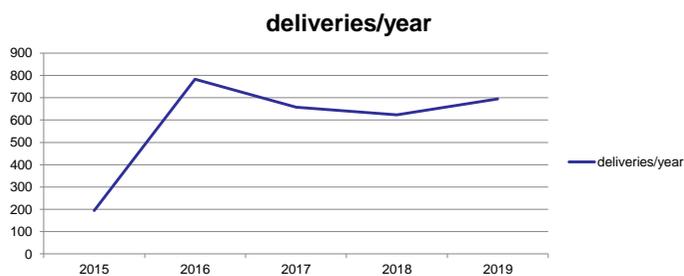

16

First steps: experiences

Trialperiod with productiv ILL within the Bavarian Library Network (BVB)

- 524 deliveries 1.6.2015 – 31.5.2016 (first year)
- Total number 2953 (06/08/2019)
- highest rate 2016 with 783 deliveries

ILDS2019

Dr. Berthold Gillitzer

17

First steps: experiences

- Accepted by the user without problems
- Rare multiple orders for the same title
- 2159 deliveries from 1710 different titles
- The top titles:
 - „Was die Satire darf“ (“What is allowed for satire”) - next to Prague in university library Greifswald (600 km) **11 deliveries**
 - „Praxis-Handbuch Erbrechtsberatung“ (“Manual of practice to consulting of inheritance law”) **10 deliveries**

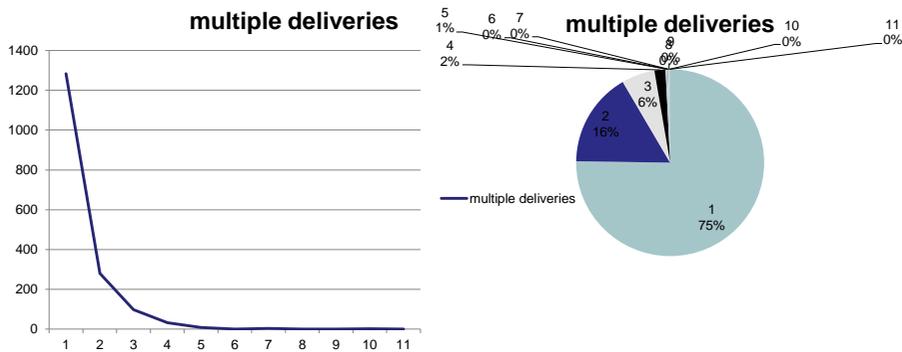

ILDS2019

Dr. Berthold Gillitzer

18

First steps: experiences

- Rare multiple orders for the same title

First steps: experiences

- ILL with delivery to the patron and not to the borrowing library
 - Sometimes the customer doesn't expect an ebook – it works anyway
 - **“Annual rate of orders”** (orders per total amount of selectable titles per year) is **identical for e-books and printed books: 0,031**
- ⇒ **The systems serves exactly the needs of ILL!!**

ILL and E-Books

Things to be done by the libraries:

- Tasks of the lending libraries:
 - negotiating license agreements
 - input of license data
 - processing of the orders
- Tasks of the borrowing libraries:
 - Enable ordering in the local or regional ILL portal

ILL and e-books – Content

Licenses and license agreements

Copyright: Klaus Stüttmann

ILL and e-books – Content

Aspects of licenses for e-books

- **Appendix** to existing or new license contracts for e-book packages
- Delivery of e-books within ILL not appropriate for basic literature (eg textbooks for undergraduate collections)
- No risks for the economic interests of the publisher by:
 - flexible **limitation of access**
 - **limited number of authorized user**
 - **controlled access**

ILL and e-books – Content

Aspects of licenses for e-books

- Possibility of **consortia and licence communities with a master license agreement**: administration of consortia with common conditions and common access limitations (the limited number of downloads per ebook per year counts for all members of the consortia together)
- ⇒ allows more control of total access to documents for publishers

ILL and e-books – Content

BSB

Aspects of licenses for e-books

- transparency by statistical information about access to e-books by a lending library for publishers
- ⇒ further transparency of the needs of libraries concerning e-books for publishers
- ⇒ ILL of e-books as an alternative to the illegal exchange of documents by scientists and students
